An Aerospace Research & Development Company

FOR IMMEDIATE RELEASE

## **CARTER AVIATION'S JAY CARTER RECEIVES PRESTIGIOUS AHS-INTERNATIONAL PAUL E. HAUETER AWARD**

Alexandria, Virginia, March 31, 2014 – AHS International – The Vertical Flight Technical Society – today announced the 2014 recipients of its prestigious awards program, which has, since its establishment in 1944, paid tribute to the outstanding leaders of vertical flight and served as a catalyst for stimulating technological advances. This year's winners will be recognized at the 70th Annual Grand Awards Banquet on Wednesday, May 21, 2014 during AHS International's 70th Annual Forum & Technology Display at the Palais des congrès de Montréal, Québec, Canada.

The Society's Paul E. Haueter Award is presented each year to an individual or company that has made significant contributions to the development of vertical take-off and landing aircraft (VTOL) other than helicopters. This year, the Haueter Award will be given to Jay Carter, Jr., President, Chief Executive Officer and Principal Design Engineer, Carter Aviation Technologies, LLC, for his achievements in slowed-rotor compound aircraft designs capable of providing unprecedented improvements in rotorcraft operational flexibility, efficiency, speed and safety. Mr. Carter's contributions culminated during flight-testing in 2013 when Carter's 4-place second-generation Slowed-Rotor/Compound (SR/C) VTOL demonstrator consistently achieved level flight lift-to-draft values of nearly 12, exceeding values of conventional helicopters by a factor of 2.5.

### **About Carter Aviation Technologies, LLC.**

Carter Aviation is a Wichita Falls, Texas based aerospace research and development firm that has developed and demonstrated its Slowed-Rotor/Compound (SR/CTM) Technology. More information is available at [www.CarterCopters.com](http://www.CarterCopters.com). To discuss any of the foregoing or schedule a visit to Carter Aviation's facilities, please contact Jon Tatro at [Jon.Tatro@CarterAero.com](mailto:Jon.Tatro@CarterAero.com).
